DESCRIPTORS Academic Libraries: *Computer Oriented Programs: Information Systems: Learning Resources Centers: *Libraries: Library Automation: Library Technical Processes: *Online Systems: Public Libraries: Special Libraries
IDENTIFIERS *Florida

ABSTRACT

This directory contains information about current applications and proposed uses of computer systems in Florida's libraries for the purposes of (1) providing the base for a communication network among librarians now using computers and those who are interested in using them, (2) identifying information sources for librarians who are considering the use of computers, (3) suggesting possible applications of computers to library functions, and (4) computers for those persons responsible for pre-service and in-service education of librarians. Tables display the number of libraries of various kinds that are applying or planning to apply computer technology to major functions: that are using or planning computer applications developed in-house: and that are using externally-developed systems. The directory lists the address and telephone numbers for the providers of those systems. Descriptions of computer applications and the names of contact persons are given for individual institutions in four sections focusing on academic libraries, public libraries, school media centers, and special libraries. DIRECTORY OF FLORIDA LIBRARIES WITH COMPUTER APPLICATIONS

INTRODUCTION

Although computers have been used in some libraries, media centers, and information centers for several years, a number of factors make it imperative today for every librarian to consider the advantages and disadvantages of utilizing computer technology in support of reference services as well as technical services functions. These factors include stable and even decreasing costs of computer and data processing and communications hardware; increasing availability of sophisticated and relatively inexpensive turnkey systems, library network affiliation, and software; and ever-increasing library labor costs. In these times of tight budgets, and in view of the existence of a bewildering assortment of possibilities for computerization of library functions, it seemed to us useful to attempt to gather into one directory information about existing and proposed computer applications in Florida's libraries. The major purposes of this project are:

(1) to provide the base for a communication network between and among those librarians who are now using computers and those who are interested in these applications, thereby fostering interlibrary cooperation;

(2) to identify information sources for librarians who are considering the use of computers for one or more purposes;

(3) to suggest possible applications of computers to libraries; and

(4) to identify current and emerging trends in the use of computers for those persons responsible for pre-service and in-service education of librarians.

To obtain the information needed for the directory, a questionnaire was prepared and sent to selected critics for comment. The questionnaire was modified on the basis of suggestions obtained and was mailed to all libraries listed in the Florida Library Directory, 1978.[1] A total of 436 survey forms were sent to 81 academic libraries, 91 independent public libraries or public library systems, 40 county-level school media supervisors, and 224 special libraries. A total of 89 libraries responded to the questionnaire with information on current or planned computer applications. An additional 49 libraries responded that automation had been informally considered for one or more library applications.

Examination of the completed survey forms revealed unexpected ambiguity and inconsistency in terminology used by a number of respondents. In order to impose a degree of standardization on these responses, Barratt Wilkins, the State Librarian of Florida, suggested that we use the Handbook of Standard Terminology for Reporting and Recording Information about Libraries[2] as our authority for terminology. Accordingly, all information that was received from respondents was subsumed under terminology from the Handbook and was edited as necessary to provide internal consistency and uniformity. We found the Handbook to be quite satisfactory for our purposes, and experienced no difficulty in classifying data under the 10 major categories used.

After the initial editing was completed, telephone calls were made to every library scheduled for inclusion in the directory. The calls were made to verify all directory information, clarify points when necessary, provide an opportunity to update information on computer applications, and inquire about funding sources for each application. These calls were completed between December 15, 1979 and January 15, 1980. Thus, the information we present is current as of December 1979.

During the telephone interviews, each of the respondents was asked about sources of funding for current or proposed computer applications. Although most reported that local budgets were used to initiate and operate their computer applications, there were some notable exceptions.

Private funding for initiating computer applications was reported as follows: (1) five private academic libraries reported that their initial SOLINET terminal was funded through a Kellogg Foundation Grant, (2) the Conn Foundation provided funds for computer hardware in one instance, and (3) a grant from an anonymous donor was used to establish a MEDLINE terminal in a hospital library. As for non-local private support for current operations, two academic and one special library reported charging fees to the users of on-line reference services. Supplemental sources were reported as follows: (1) the initial installation of a MEDLARS terminal was funded by a Veterans Administration Central Office Special Project Grant, (2) an SDI service in a special library was subsidized by the U.S. Department of Agriculture, (3) a local consortium of health sciences libraries was established and is operating with funds from a National Library of Medicine grant, (4) OCLC terminals in a large public library were installed with federal funds, (5) records were converted to machine format by workers hired with CETA funds in a public library, and (6) the retrospective conversion of records in a public library was done with support from an LSCA grant. The only instance of additional support from the State of Florida was a Department of Education grant to study applications of minicomputers in one school district.

The five tables that follow summarize most of the information obtained from the survey. Although no discussion is provided here, readers are encouraged to examine them and draw their own conclusions. We have also included a directory of externally-developed computer-based systems used in Florida libraries.

ACADEMIC LIBRARIES

Directory Information

A1 BARRY COLLEGE

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

interlibrary loan services - SOLINET/OCLC.

In Planning or Implementation Stage:

serials control services - SOLINET/OCLC.

Contact Person:

Sister Franz Lang, O.P.
Director of Library Services
Barry College
11300 N.E. Second Avenue
Miami, FL 33161
(305) 758-3392

A2 BISCAYNE COLLEGE LIBRARY

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

In Planning or Implementation Stage:

interlibrary loan services - SOLINET/OCLC.

Contact Person:

Margaret Elliston
Biscayne College Library
16400 N.W. 32nd Avenue
Miami, FL 33054
(305) 625-6000

A3 BREVARD COMMUNITY COLLEGE

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

computer-assisted instruction - PLATO

interlibrary loan services - SOLINET/OCLC.

A3 BREVARD COMMUNITY COLLEGE *(continued)*

Contact Person:

Harvey G. Jackson
Director of Learning Resources
Brevard Community College (Cocoa Campus)
1519 Clearlake Road
Cocoa, FL 32922
(305) 632-1111 Ex. 295

A4 BROWARD COMMUNITY COLLEGE

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

management services - We provide the College's Data System with a list of delinquent student borrowers. The College computer gives us a printout (for all campuses) of these names. Our on-line computer registration system then rejects these delinquents.

materials acquisition services - SOLINET/OCLC used to establish main entry.

Contact Person:

Grady Drake
Library
Broward Community College
3501 S.W. Davie Road
Ft. Lauderdale, FL 33314
(305) 475-6648

A5 DAYTONA BEACH COMMUNITY COLLEGE

Operational:

catalog maintenance and production/cataloging services - College computer produces author and title listings on-line.

general circulation services - On-line system. Returns are batched. Fine notices are printed, holds, etc.

In Planning or Implementation Stage:

catalog maintenance and production/cataloging services - Subject headings.

A5 DAYTONA BEACH COMMUNITY COLLEGE (*continued*)

materials acquisition services - Will have on-line acquisition system as an in-house system.

Contact Person:

Russ Daehler, Head Librarian
Daytona Beach Community College
P. O. Box 1111
Daytona Beach, FL 32015
(904) 255-8131

A6 ECKERD COLLEGE

Operational:

catalog maintenance and production/cataloging services - SOLINET/ OCLC.

interlibrary loan services - SOLINET/ OCLC.

In Planning or Implementation Stage:

materials acquisition services - SOLINET/OCLC.

Contact Person:

John Vigle
Director of Library Services
Eckerd College
5401 34th Street, South
St. Petersburg, FL 33733
(813) 867-1166

A7 EMBRY-RIDDLE AERONAUTICAL UNIVERSITY

Operational:

machine-assisted reference services - DIALOG.

In Planning or Implementation Stage:

catalog maintenance and production/cataloging services - Investigating cost and procedures for possible construction of data base of holdings.

general circulation services - Assembling cost data to identify the best way to construct a data base and the most economical implementation for our library.

A7 EMBRY-RIDDLE AERONAUTICAL UNIVERSITY (*continued*)

Contact Person:

Judy Luther
Director, Media Services
Embry-Riddle Aeronautical University
Regional Airport
Daytona Beach, FL 32014
(904) 252-5561

A8 FLAGLER COLLEGE

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

interlibrary loan services - SOLINET/OCLC.

Contact Person:

Glenn E. Platt, Director
Flagler College
King Street
St. Augustine, FL 32084
(904) 829-6481 Ex. 206

A9 FLORIDA A & M UNIVERSITY

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

interlibrary loan services - SOLINET/OCLC.

machine-assisted reference services - MEDLINE, TOXLINE in the Pharmacy Library.

In Planning or Implementation Stage:

general circulation services - CLSI.

Contact Person:

Nicholas E. Gaymon
Director of Libraries
Box 78A
Florida A & M University
Tallahassee, FL 32307
(904) 599-3370

A10 FLORIDA ATLANTIC UNIVERSITY

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC. KWIC Index to Florida Documents, Index to Ocean Science Documents.

general circulation services - Mohawk.

interlibrary loan services - SOLINET/OCLC.

machine-assisted reference services - DIALOG, ORBIT, FREE.

materials acquisition services - Semi-automated local application through University Computer Center.

serials control services - In-house batch processing and serials holdings list production in hard copy and also as COM.

In Planning or Implementation Stage:

general circulation services - CLSI.

selective dissemination of information services - Local.

serials control services - SOLINET/OCLC.

Contact Person:

Anne Marie Allison
Assistant Director for Library Services
Florida Atlantic University Library
500 Northwest 20th Street
Boca Raton, FL 33431
(305) 395-5100 Ex. 2341

A11 FLORIDA INSTITUTE OF TECHNOLOGY

Operational:

machine-assisted reference services - DIALOG, ORBIT.

materials acquisition services - OCLC, through the Cooperative College Library Center.

In Planning or Implementation Stage:

catalog maintenance and production/cataloging services - Investigating SOLINET/OCLC.

general circulation services - Considering CLSI, IBM, Dataphase, and other automated circulation systems.

A11 FLORIDA INSTITUTE OF TECHNOLOGY (*continued*)

Contact Person:

L. L. Henson
Florida Institute of Technology Library
P. O. Box 1150
Melbourne, FL 32901
(305) 723-3701 Ex. 271

A12 FLORIDA INTERNATIONAL UNIVERSITY

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC. The OCLC system also generates archival tapes of holdings that are reformatted and fed into Circulation's CLSI system.

general circulation services - CLSI.

interlibrary loan services - SOLINET/OCLC.

machine-assisted reference services - DIALOG, ORBIT.

management services - See materials acquisition services.

materials acquisition services - CRT input to main frame of University Data Center by phone line. The acquisitions program creates purchase order and fund reports for the two campuses.

serials control services - SOLINET/OCLC used to check in a selected number of serials.

In Planning or Implementation Stage:

machine-assisted reference services - Investigating BRS and New York Times Information Bank. Will have CRT in reference and reserve for access to CLSI.

Contact Person:

H. Juanita Flanders
Acquisitions Librarian and Computer Coordinator
Florida International University
Tamiami Campus, Tamiami Trail
Miami, FL 33199
(305) 552-2471

A13 FLORIDA JUNIOR COLLEGE

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

computer-assisted instruction - PLATO.

interlibrary loan services - SOLINET/OCLC used to check for holdings.

Contact Person:

Edward Fitzgerald
Florida Junior College at Jacksonville
Kent Campus
Roosevelt Boulevard
Jacksonville, FL 32205
(904) 387-8222

A14 FLORIDA SOUTHERN COLLEGE

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

machine-assisted reference services - DIALOG.

In Planning or Implementation Stage:

interlibrary loan services - SOLINET/OCLC.

Contact Person:

Larry Stallings
Director, Roux Library
Florida Southern College
Lakeland, FL 33802
(813) 683-5521 Ex. 211

A15 FLORIDA STATE UNIVERSITY

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC. COM catalog through SOLINET.

computer-assisted instruction - PLATO

A15 FLORIDA STATE UNIVERSITY (*continued*)

general circulation services - CLSI.

interlibrary loan services - SOLINET/OCLC.

machine-assisted reference services - MEDLINE, ORBIT, DIALOG.

materials acquisition services - BATAB. Run batch through Northwest Regional Data Center. Data input through terminals and via tape. We obtain most reports printed, book history on COM.

selective dissemination of information services - See serials contol services.

serials control services - Local batch system for current subscriptions with department-of-interest listings. Expect soon to also run a list of all serials held from data submitted to the Florida Union List of Serials.

In Planning or Implementation Stage:

catalog maintenance and production/cataloging services - Expect to get a name authority list from COM data in order to maintain local batch.

machine-assisted reference services - Plan access to catalog through CLSI.

selective dissemination of information services - Information on new acquisitions to be made available by user profile as a function of BATAB acquisition system.

Contact Person:

James F. Jones
Assistant Director for Technical Services
or
Dr. Patricia Goheen
Assistant Director for Public Services
Florida State University Library
Tallahassee, Florida 32306
(904) 644-5211

FLORIDA STATE UNIVERSITY - LAW LIBRARY

See Special Libraries

A16 HILLSBOROUGH COMMUNITY COLLEGE

Operational:

general circulation services - Remote batch printout of college overdues, updated weekly.

serials control services - Remote batch printout of periodicals held, with dates. Also on COM.

In Planning or Implementation Stage:

general circulation services - Overdues will be available on-line and used at time of student registration.

Contact Person:

Susan Grzybowski
P. O. Box 22127
Hillsborough Community College
Tampa, FL 33622
(813) 247-6641

A17 LAKE SUMTER COMMUNITY COLLEGE

Operational:

catalog maintenance and production/cataloging services - Computer printouts of holdings of maps, videotapes, and motion pictures.

machine-assisted reference services - Books in the professional collection are keypunched and information may be obtained in almost any bibliography form. Also used for inventory. Programmed instructional units are available from the computer by subjects.

Contact Person:

Helen Sergeson
Librarian
Lake Sumter Community College
Leesburg, FL 32748
(904) 787-3747 Ex. 33

A18 MIAMI-DADE COMMUNITY COLLEGE - ALL CAMPUSES

Operational:

catalog maintenance and production/cataloging services - SOLINET/OCLC.

A18 MIAMI-DADE COMMUNITY COLLEGE - ALL CAMPUSES *(continued)*

general circulation services - Mohawk.

serials control services - In-house system provides current inventory. Check-ins use Itel machine for input and main frame computer in College's Computer Center.

In Planning or Implementation Stage:

catalog maintenance and production/cataloging services - Studying the desirability of replacing the present public catalogs with COM equivalents.

general circulation services - Changes in hardware are planned. Present system is in need of update.

serials control services - Changes are planned. Present system is in need of update.

Contact Person:

Dr. Philip Nicely, Dean
Planning, Research and Computer Services
Miami-Dade Community College
11011 S.W. 104th Street
Miami, FL 33176
(305) 596-1328
or
Celia C. Suarez
Director, North Campus Library
Miami-Dade Community College
11380 N.W. 27th Avenue
Miami, FL 33176
(305) 685-4436
or
Jo E. Dewar
Director, South Campus Library
Miami-Dade Community College
11011 S.W. 104th Street
Miami, FL 33167
(305) 596-1293

A19 NORTH FLORIDA JUNIOR COLLEGE

Operational:

catalog maintenance and production/cataloging services - Computer printout of AV materials catalogued in the library.

A19 NORTH FLORIDA JUNIOR COLLEGE *(continued)*

Contact Person:

Lou Sauds, Director
North Florida Junior College Library
Turner Davis Drive
Madison, FL 32340
(904) 973-2288

A20 POLK COMMUNITY COLLEGE

Operational.

general circulation services - On-line, circulation control system. Provides holds, information by title, student; gives status, location, price, vendor, date, call number, author, title; generates notices and invoices; generates lists of transactions by ID number and by call number; provides weekly and daily statistics.

management services - Decisions on weeding, ordering, etc., based on use. See also general circulation services.

In Planning or Implementation Stage:

catalog maintenance and production/cataloging services - Working towards COM; hard copy or on-line catalog.

general circulation services - Investigating hand-held Optical Character Recognition System to read student ID numbers and accession numbers.

Contact Person:

Dr. P. S. Deniston
Polk Community College
999 Avenue H, N.E.
Winter Haven, FL 33880
(813) 294-7771 Ex. 305

A21 ST. JOHNS RIVER COMMUNITY COLLEGE

Operational:

catalog maintenance and production/cataloging services - Author, title, and two subjects are placed on a data sheet; information is punched on cards, then put on tape and run once a year. Branch campus has both its own holdings and the main campus holdings on printout.

A21 ST. JOHNS RIVER COMMUNITY COLLEGE (*continued*)

Operational:

general circulation services - Charge card is IBM card; printouts are run weekly providing access through call number, date due, and borrower's name. A second program is run twice a year for all overdues.

Contact Person:

Vesta Gordon
Director of Library Services
5001 St. Johns Avenue
Palatka, FL 32077
(904) 328-1571 Ex. 216

A22 ST. PETERSBURG JUNIOR COLLEGE - CLEARWATER CAMPUS

Operational:

computer-assisted instruction - Used in science classes.

serials control services - Have periodicals holdings on computer. Provides location, indexing availability, binding status.

In Planning or Implementation Stage:

general circulation services - CLSI was recommended but funding was not available.

Contact Person:

Dick Brett
St. Petersburg Junior College
Clearwater Campus
2465 Drew Street
Clearwater, FL 33515
(813) 443-0681 Ex. 2526

A23 ST. PETERSBURG JUNIOR COLLEGE - ST. PETERSBURG CAMPUS

Operational:

serials control serivces - Periodicals holdings provides location and indexing availability. Subject access, current issue status is indicated.

A23 ST PETERSBURG JUNIOR COLLEGE - ST. PETERSBURG CAMPUS *(continued)*

In Planning or Implementation Stage:

serials control services - Horizen II microcomputer system to be installed in serials department.

Contact Person:

Charles Buhrman
Periodicals Librarian
Michael M. Bennet Library
St. Petersburg Junior College
P. O. Box 13489
St. Petersburg, FL 33733
(813) 381-0681

A24 SANTA FE COMMUNITY COLLEGE

In Planning or Implementation Stage:

catalog maintenance and production/cataloging services - CLSI, through the University of Florida.

general circulation services - CLSI, through the University of Florida.
